SUMMARY

- **Highly motivated IT professional** with 9+ years of experience as a Frontend Developer in Banking, Artificial Intelligence, Cryptocurrency, and Insurance domains.
- **Expert in Angular** with strong skills in HTML5, CSS3, Bootstrap, jQuery, JavaScript, RxJs, and Sass, along with experience in hybrid mobile app development using Apache Cordova.
- **Proven ability to collaborate with clients and senior stakeholders**, including on-site project development and communication with CTOs and Directors, throughout the software development life cycle.
- **Adaptable and technically proficient**, thriving in challenging roles and driven by a strong technical background.

SKILLS

- Areas of Expertise: Frontend Development, Hybrid Mobile Application Development, Application Performance Tuning.
- Languages: Angular, JavaScript, TypeScript, Redux, HTML, CSS, Sass, jQuery, Apache Cordova (Hybrid Mobile Apps), Core Java, MySQL, PostgreSQL.
- Web Technologies: REST, JSON, AJAX
- Testing Tools/Framework: Jasmine and Karma, Postman (REST API).
- Version Control System: Git, GitHub, Bitbucket.
- Methodologies: Waterfall, Agile/Scrum.

WORK EXPERIENCE

Senior Consultant, CGI, Canada Mar 2025 – Present

- Developing the application so that investment manager can review and manage the accounts.
- The application is being developed that uses Ag grid and Highcharts to convert visualizations of the TIBCO Spotfire application into ours.
- Engaging in ongoing communication with the product owner and adhering to the agile process.
- Using Angular 18 and for testing using playwright framework.

Frontend Developer, Quaeris.ai, Canada Jun 2024 – Feb 2025

- Developed a Spend Tracker page using Highcharts in Angular, integrating interactive charts for visualizing expenditure data, which improved data analysis and reporting capabilities.
- Redesigned the notebook creation flow, enhancing the overall user experience for organizing and managing data insights.
- Collaborated with UX designers and backend developers to align the new functionality with broader product objectives.
- Resolved various bugs, ensuring a smoother user experience and higher system reliability.

Senior Software Engineer, Luxoft Company, India Oct 2022 – Nov-2023

- Developed an investment platform for CIMB, a Malaysian bank, facilitating wealth-building through investments in Unit Trust funds.
- Introduced features like top-up, redemption, and fund switching, enhancing user engagement and financial planning.
- Collaborated closely with the product owner, QA, backend and frontend development teams during sprint planning to ensure precise requirement gathering and alignment with project goals.
- Utilized Angular 15 and Figma for UX design to implement new features and resolve critical application bugs.

Senior Consultant, Capgemini Services, India & Malaysia Sept 2018 – Oct 2022

- Developed the frontend for three major banking products for CIMB in Malaysia using Angular (6+), Redux, and

JavaScript, focusing on scalability and performance.

- Implemented unit testing using Jasmine and Karma to ensure code quality and reliability.
- Spearheaded the complete lifecycle of new applications, including module integration and feature enhancement to meet evolving business requirements.
- Led a team on a critical project, ensuring timely delivery and adherence to quality standards.
- Provided expert frontend solutions across high-profile projects for clients such as American International Group, Morgan Stanley, and Union Bancaire Privée.
- Communicated with clients to deliver robust financial solutions, ensuring compliance with industry standards and best practices.

Software Engineer, Intelliswift Software, India

May 2017 – Sept 2018

- Developed user interfaces for Kotak Bank, improving credit card services, image card functionalities, and pre-login modules within the net banking platform.
- Spearheaded the development of the credit card blocking/unblocking feature within the bank's mobile application, ensuring seamless integration and user experience.
- Worked closely with cross-functional teams to implement new enhancements in net banking modules, leveraging Angular 2 to deliver responsive and efficient web applications.
- Utilized Angular 2, JavaScript, HTML, CSS and bootstrap to build robust and scalable front-end solutions, driving improvements in the bank's digital customer experience.

Software Developer, Bitstreet Technologies, India

Oct 2015 – May 2017

- Successfully transitioned a key project from Hans Infotech to Bitstreet, ensuring seamless continuity and maintaining client satisfaction.
- Developed a hybrid iOS app using Apache Cordova, managing the entire process from coding to successful deployment on the App Store.
- Architected and developed the Keywo.com web application, focusing on scalability and performance, using a tech stack that included HTML, CSS, JavaScript, jQuery, Sass and SQL.

Junior Software Developer, Hans Infotech, India

Feb 2015 – Oct 2015

- Contributed to the development of SearchTrade, an innovative cryptocurrency-based platform aimed at fostering decentralized economic growth.
- Designed and built the Android hybrid mobile application from the ground up, leading all phases from development to testing and successful Play Store deployment.
- Applied advanced web technologies such as HTML, CSS, JavaScript, jQuery, and Apache Cordova to create a responsive and user-friendly mobile experience.
- Worked in a small, focused team to ensure the product's adherence to industry standards and best practices, enhancing its functionality and user engagement.

HIGHLIGHTS

- **Certifications:** What is Generative AI, Introduction to Artificial Intelligence, Ethics in the Age of Generative AI, Generative AI: The Evolution of Thoughtful Online Search, Learning Microsoft 365 Copilot, Streamlining Your Work with Copilot.
- Achieved back-to-back promotions within two years for exceptional performance and leadership.

PERSONAL PROJECTS

- Created a **React-based app** to explore component-based architecture, routing, and hooks.
